The Neyveli Projects Showcase Portal

A Digital Initiative for Transparency and Public Engagement

Presented for MLA Saba Rajendran & Team

Paretoid

The Current Challenge: Static Data Limits Reach and Engagement

Limited Accessibility

Project information is confined to static Excel files and printed booklets, making it difficult for the public to access and search.

Difficult to Manage

Updating project statuses requires technical expertise and is a slow, cumbersome process. There's no easy way to filter projects by village, category, or status.

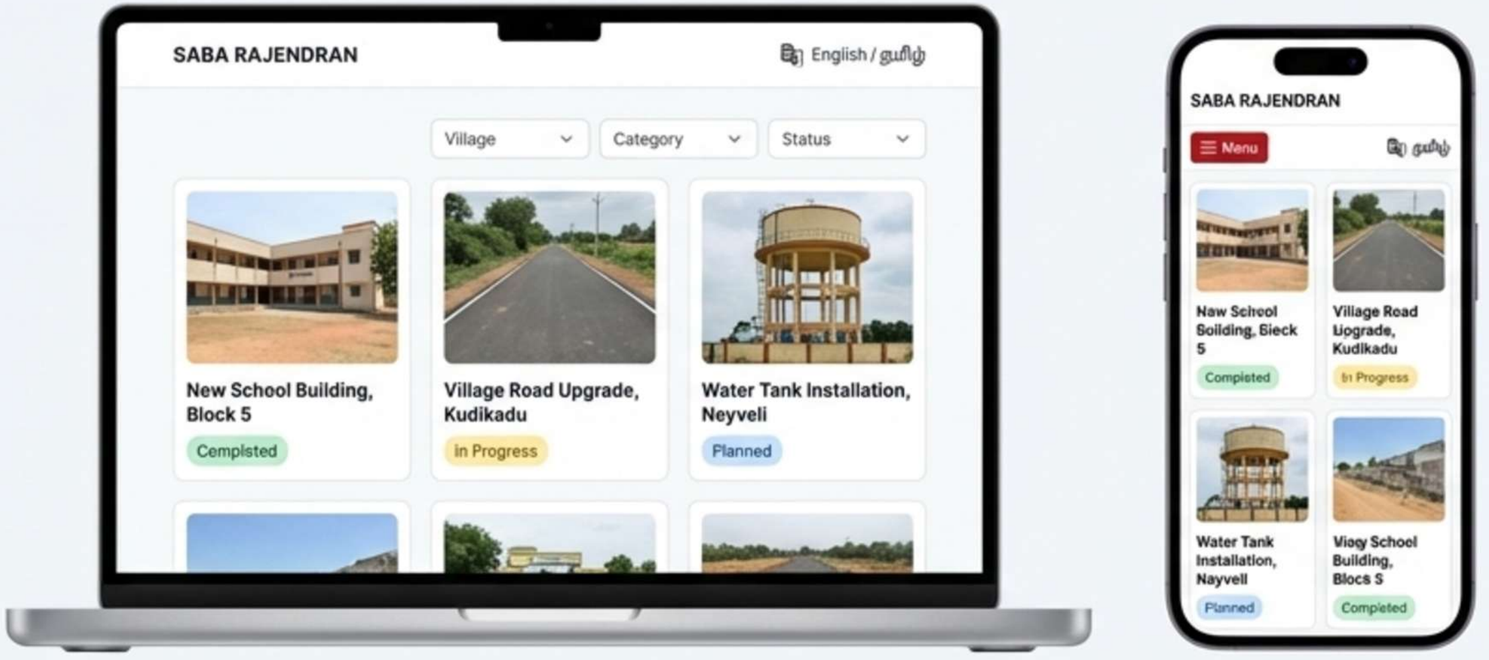

A Digital Expectation Gap

Today's citizens expect instant, on-demand information. The current system creates a disconnect with a digitally-native public.

Paretoid

The Solution: A Dynamic, Bilingual Portal to Connect with the Community

We will launch a modern, mobile-responsive web portal at **`sabarajendran.com`** to transform the “Neyveli MLA Booklet” into an interactive, digital asset.

Empower Citizens: Provide instant, searchable access to all constituency project details.

Streamline Office Work: Allow staff to add, edit, and update projects independently, with no technical knowledge required.

Enhance Public Trust: Increase transparency and engagement by making public works information universally accessible.

Core Features Designed for Neyveli's Needs

Interactive Project Showcase

A responsive grid displays all projects. Users can instantly filter by **Village**, **Category**, **Year**, and Status without the page reloading.

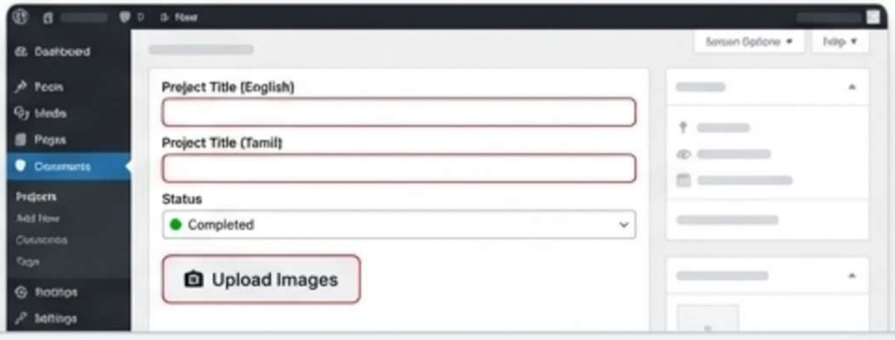

2. Complete Bilingual Access

Full support for both Tamil and English, ensuring the portal reaches every member of the constituency. A simple toggle switches all content instantly.

3. Effortless Content Management

A user-friendly admin panel allows office staff to add new projects, update statuses, and upload images as easily as writing an email.

Built on a Smart Foundation: The Power and Simplicity of WordPress

We use WordPress, the world's most popular and trusted content management system, powering **43% of all websites**. This isn't just a technical choice; it's a strategic one.

1. Unmatched Ease of Use

The intuitive admin panel means your staff can manage all project content without needing to call a developer for simple updates.

2. Future-Proof & Scalable

A vast ecosystem of 60,000+ plugins and a massive developer community ensures the portal can grow and adapt to any future needs.

3. SEO-Ready & Secure

WordPress is inherently built to be SEO-friendly, and we implement security hardening from day one to protect your digital asset.

Our Two-Week Blueprint: From Kickoff to Launch

WEEK 1: Foundation & Core Functionality

- WordPress Setup, Domain & Security
- “Projects” Content Structure
- Automated Excel Data Import
- Live Project Grid & Filtering UI

WEEK 2: Polish & Public Launch

- Bilingual (Tamil/English) Integration
- Real-Time AJAX Filtering
- Image Galleries & Social Sharing
- Performance Optimization & Testing

At the end of Week 1, you will have a working portal with all current projects live and filterable.

At the end of Week 2, `sabarajendran.com` is live, optimized, and ready for public announcement.

The Custom Advantage: How Smart Development Replaces Expensive Fees

Instead of relying on costly third-party plugins with recurring annual fees, we build lean, custom solutions tailored specifically for your needs. You own the code, and there are no vendor lock-ins.

Functionality	Paid Plugin Approach	Our Custom Solution
Bulk Project Import	WP All Import ($99 one-time)	A reusable PHP script built for your exact Excel format. **(Included)**
Real-Time Filtering	FacetWP ($99/year recurring)	A custom AJAX filtering system for instant results. **(Included)**
Bilingual Support	WPML ($39/year recurring)	Integration with the powerful and free Polylang plugin. **(Included)**

Key Takeaway: Our approach saves you **~$237 in the first year and ~$138 every year after**, while providing faster, more integrated functionality.

A Clear & High-Value Investment

Project Investment: **₹85,000** (One-Time)

Component	Market Value	Included
Custom Excel import script	₹15,000	✓
Custom AJAX filtering system	₹20,000	✓
Bilingual implementation	₹12,000	✓
Custom theme development	₹25,000	✓
Image galleries & optimization	₹8,000	✓
Social sharing features	₹5,000	✓
Training & documentation	₹8,000	✓
30 days post-launch support	₹10,000	✓

Total Market Value ₹1,03,000

Your Investment ₹85,000

You Save ₹18,000

The only recurring cost is for domain and hosting renewal (approx. ₹2,000-5,000/year). There are no expensive plugin license fees.

The Smartest Choice for Speed, Control, and Value

Approach	Cost	Timeline	Full Client Control?
DIY with paid plugins	₹50,000 + **₹25,000/year recurring**	4-6 weeks	Limited
Web Agency	₹1,50,000 – ₹3,00,000	8-12 weeks	No
Our Custom Solution	**₹85,000** (One-time)	**2 weeks** ⚡	**Yes!**

"Comparable projects cost ₹1,50,000+ at agencies."

A Partnership Built for Long-Term Success

Full Ownership, No Lock-In

You own all the custom code and the entire digital asset. We build platforms, not dependencies.

Empowered Team, Easy Updates

Your office staff will be trained and equipped to manage all day-to-day content, ensuring the portal is always current without developer costs.

Rapid Delivery, Immediate Impact

A live, public-facing portal in just two weeks means you can demonstrate progress and enhance transparency immediately.

Built to Grow

The platform is scalable, ready for future enhancements like interactive maps, user submissions, or analytics dashboards as your needs evolve.

Paretoid

The Path to Launch in 2 Weeks

1

Approval

Confirm the project scope and timeline. We're ready when you are.

2

Assets

Provide the master Excel file with project data and any available images.

3

Kickoff Payment

A 30% upfront payment (₹25,500) allows us to secure resources and begin development within 24 hours.

4

Development & Review

We start building immediately, providing daily progress updates for your review.

5

Launch

Your new portal goes live!

Our Partnership Commitment

Milestone-Based Investment

30% on Signing (₹25,500): To kick off development.

40% at Week 1 Completion (₹34,000): Upon delivery of core functionality.

30% at Launch (₹25,500): Once the website is live and fully tested.

Fully Inclusive Project Scope

- ✓ All custom development work
- ✓ 1 year of domain registration (`sabarajendran.com`)
- ✓ 1 year of professional web hosting
- ✓ Complete Excel data import and setup
- ✓ A dedicated training session for your staff
- ✓ 30 days of post-launch technical support

We are ready to begin bringing a new level of transparency and engagement to your constituency. Let's build this together.
